31 August 2015

Dear Home Owners:

We are currently doing a reclaimed waterline replacement project for Holley-Navarre Water System. The work will take place on the following roads:

- 1) Pepper Drive (West side of roadway)
- 2) Woodmont Street (South side of roadway)
- 3) Citrus Drive (East side of roadway)
- 4) Reef Road (South side of roadway)
- 5) Masters Boulevard (East side of roadway)

Our intentions are to perform this work as quickly as possible by digging method; however there will be areas that will be slow due to the amount of utilities in the area. If we should need to block your entrance, we will notify you prior to this taking place. Keep in mind that you will have access to your homes at end of each work day.

Any damage to the right-of-way in front of your home will be repaired as part of this project. This would include things like replacing grass in kind and repairing damage to irrigation systems, storm drains, etc.

We hope to complete this project within three to four months and will do our best to have traffic flowing smoothly to and from your homes every day.

Should you have any questions or concerns you may reach me at (850) 476-0026 between the hours of 9:00 am and 2:00 pm.

Regards,  
PENSACOLA CONCRETE CONST. CO., INC.
